Summary

Data Analyst with experience in data analysis, data manipulating, data visualizing, statistical analysis, hypothesis testing. Done data analysis projects using tools like Python, SQL, Tableau, Excel and Redash.

Skill Highlights

- Python, Pandas, NumPy
- SQL (MySQL, Redash, SQLite)
- Tableau, Redash
- Matplotlib, Seaborn
- SciPy.stats, Sklearn
- Product metrics

Experience

Programming Teacher - 06/2022 to 03/2023
JuniorCode, Tajikistan

As a teacher in the international programming school 'Juniorcode', I played a vital role in shaping the future of young minds. My primary responsibility was to teach coding and programming languages to students aged between 8-18 years old.

In addition to teaching coding languages such as Python, MIT App Inventor, SQL and Scratch, I also provided individual attention to each student and monitored their progress regularly.

Certificates

- AI Academy - Machine Learning course by Zypl.ai
- Interactive SQL Trainer by Far Eastern Federal University
- Fundamentals of Statistics by Bioinformatics Institute
- Basics of working in Tableau by Stepik
- Excel for work by Yandex Practicum
